Naples Metro art

The Art Stations along Line 1 of the underground in Naples, managed by ANM, are the result of a project by the municipal administration in Naples. They are one of the most interesting examples of decentralized museum spread over the urban area: more than 250 site-specific works of art by 80 protagonists of contemporary art have been placed inside and outside the stations.

CRRC Zhuzhou Electric Locomotive Research Institute Co., Ltd.

(CRRC Zhuzhou Institute), formerly known as Zhuzhou Electrical Locomotive Research Institute affiliated to the Ministry of Railways, was established in 1959, and currently is a wholly-owned subsidiary of CRRC.

Comprised of 13 entities, the **CRRC Zhuzhou Institute** boasts 2 listed companies, 11 national platforms of scientific research and innovation, 3 corporate postdoctoral research centers, 5 overseas technology R&D centers, and 11 national specialized and special new “small giant” enterprises.

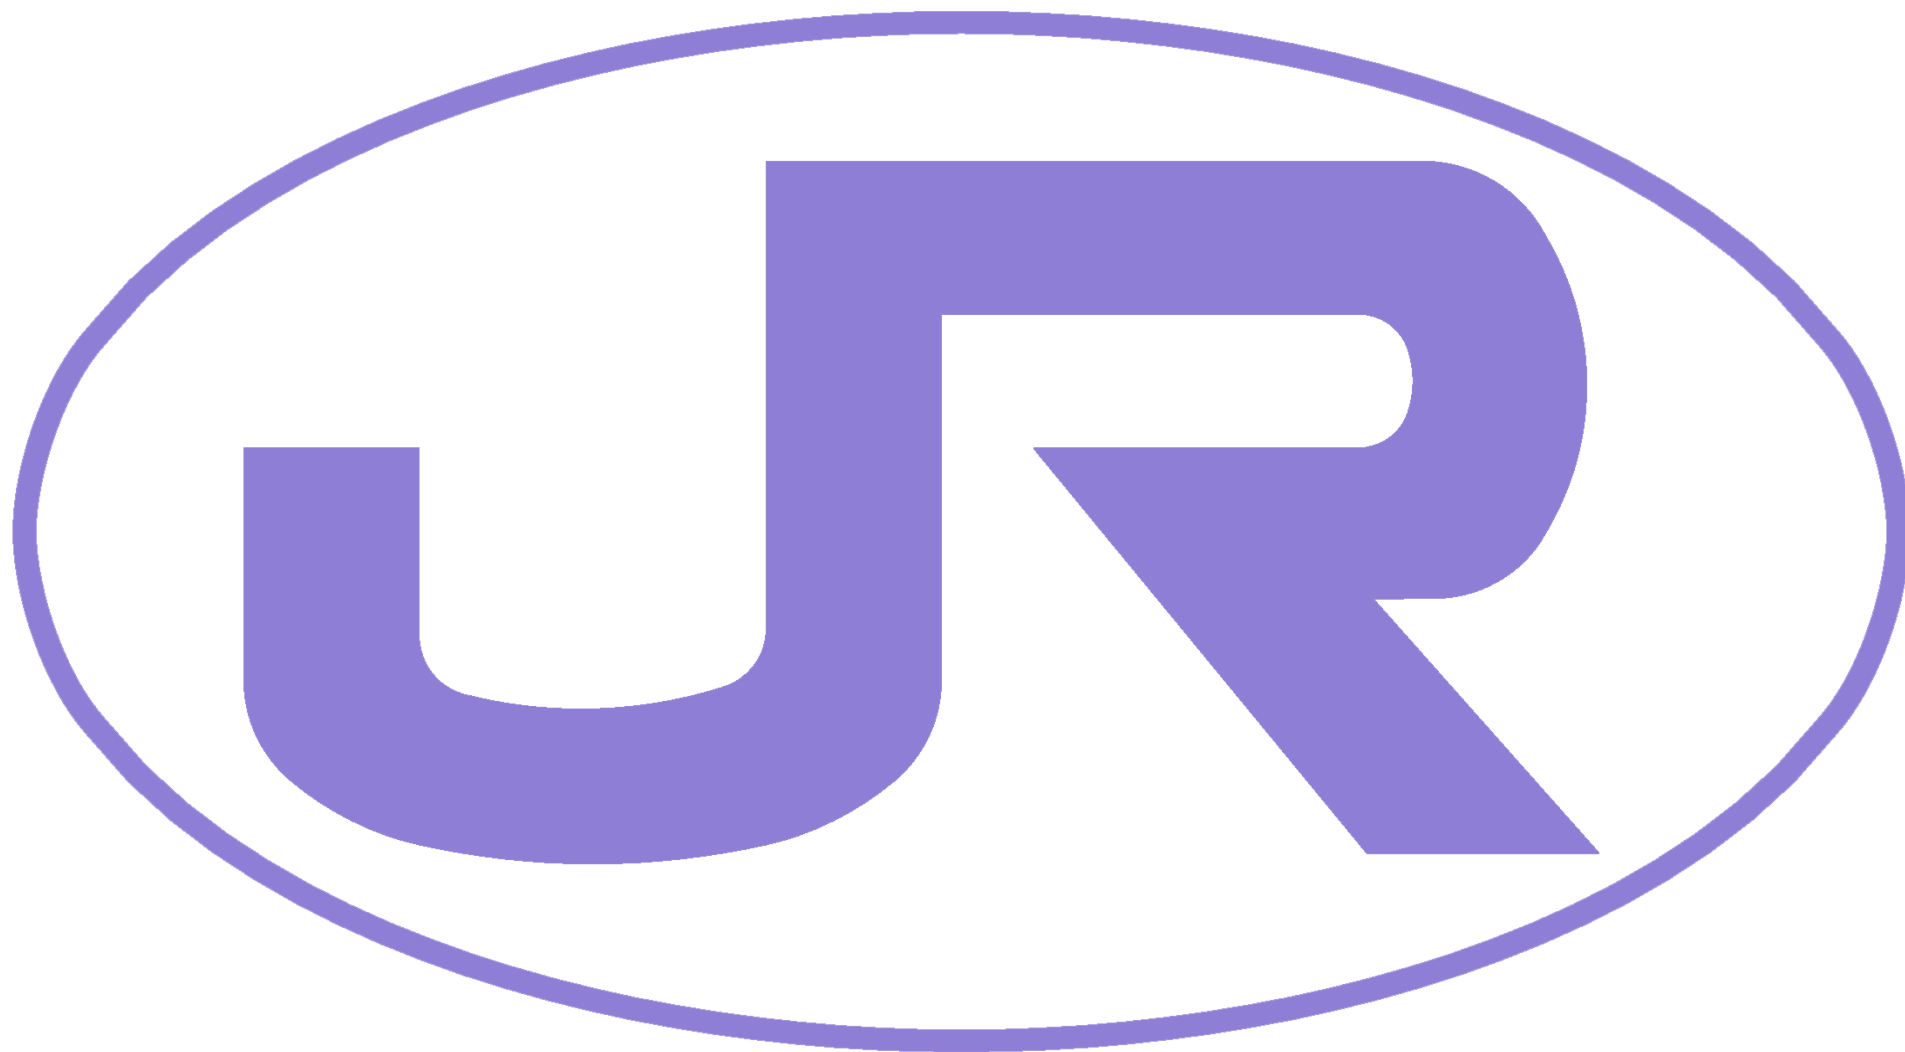

CRRC Zhuzhou Institute has more than 10,000 R&D personnel, including 1 academician of the Chinese Academy of Engineering, more than 270 PhD holders and over 5,000 master’s degree holders.

The CRRC Zhuzhou Institute has remained steadfast in its commitment to implementing national strategies, firmly upholding innovation-driven development, and extensively cultivating the transportation and energy sectors.

It has successfully cultivated three core technologies - devices, algorithms, and materials - and established three major industrial clusters in rail transportation, clean energy, and automotive and industrial sectors.
